A WORD FROM KINDERGARTEN TEACHER MRS. DONELLE FREITAG

Hello parents! I look forward to loving, teaching, caring for, reading to, playing, laughing, and singing with your treasures! I know how valuable they are to you! I, also, am a parent. My husband and I raised four fabulous kids (now adults) whom we love! I have spent my life caring for and teaching children. My desire is to teach children to enjoy learning, and to become lifelong learners who do things well. In 1981, I earned my California preschool and elementary teaching credential, which is still current and valid. I have taught in public and private elementary schools and in children's centers. I have coached children's sports and lead children's clubs and classes. I taught my own children at home for 17 years. We were missionaries in Italy for 13 years, and spoke fluent Italian before returning to the US, where my husband pastored a couple of churches. I have enjoyed being a reading teacher and tutor for many years and was the DIBELS reading assessment director at a Christian school in Oregon. I have been a full-time nanny for several families, and I have cared for hundreds of children throughout San Diego County with Sitterwise Childcare Agency. I am currently working as a reading tutor for several families as well as being a teaching nanny. I am registered with Trustline, an agency that does background checks on people who care for children. I LOVE children and can't wait to meet yours!
